

STATEMENT FOR SELF-CERTIFIED PLANS

Permit Application Number: _____

Address Known As: _____

I, _____, Registered Professional, enrolled in the Los Angeles Department of Building and Safety (LADBS) Self-Certification Program under registration number _____, affirm the following to be true and correct for the plans submitted as part of the self-certified project:

- A. The application and every page of the accompanying plan(s) stamped by me: (1) were prepared by, under the direct supervision of, or reviewed by me; (2) are complete; and (3) are, as of the date of submission, comply with the requirements of the California Building Code as amended by the City of Los Angeles, California Energy Code, City of Los Angeles Zoning Code and all other applicable laws; and
- B. The application and all technical submissions made by the Self-Certified Professional in connection with the self-certified project were prepared in accordance with and meet the “standard of care” required of the profession; and
- C. All information and assertions made in the permit application and documents submitted in support of the permit application are true and correct; and
- D. If I become aware of any false or inaccurate statement in the permit application, accompanying plans or any document submitted in support of the permit application, regardless of whether such false or inaccurate statement was made by me, my agent or employee, I will immediately take all measures necessary to correct such false or inaccurate statement; and
- E. I understand that the Superintendent of Building will rely upon the truth and accuracy of the certifications contained in the this Statement as the basis for issuing a permit under the Self-Certification Permit Program; and
- F. I understand that the self-certified project identified in the building permit application is being approved for a building permit subject to audit and/or field inspection by LADBS and the permit is subject to revocation by the Superintendent of Building if necessary or appropriate to protect the public’s health, safety or welfare; and
- G. If LADBS determines that the plans do not conform to the requirements of the California Building Code, City of Los Angeles Zoning Code or any other applicable law, I agree to make all necessary revisions in a timely manner and to take all remedial measures within my control to bring the plans and any construction there under into compliance with the requirements of the California Building Code, City of Los Angeles Zoning Code and any other applicable law; and
- H. I understand that a Notice to Stop Construction can be issued at the discretion of the Superintendent of Building.
