- Attendees' microphones are muted to avoid interruptions
- Hold all questions/comments until the public comment session

Meeting Agenda

- Introduction & Instruction on Participation
- Explanation of Local Enforcement Agency (LEA)
- Purpose of Informational Meeting
- Overview of Facility Operations
- Public Comment Session

Introductions

Local Enforcement Agency

David Thompson, Program Manager

Megan Lee, Program Supervisor

Active Recycling

Paul Bachini,

Operation Manager

L. Miner & Associates

Larry Miner, Consultant

How To Ask Questions

- Two ways to "Raise Hand" to ask question or provide comment
- During the Public Comment session, presenters will call on and unmute attendees who "raise hand"
- Copy of FAQs, Draft permit and presentation available or will be available on the City of Los Angeles, Department of Building & Safety website at https://dbs.lacity.gov/services/code-enforcement-complaints-and-compliance/local-enforcement-agency

Local Enforcement Agency (LEA)

- State-mandated regulatory program that permits, inspects, and enforces State and specific local standards for solid waste facilities, including landfills, transfer stations and various other types of recycling facilities.
- The LEA protects the health and safety of the community by serving as the lead City investigators and inspector for solid waste and recycling operations that could have a significant public health and environmental impact if not properly regulated. The LEA accomplishes this by conducting unannounced periodic inspections of permitted facilities and issuing corrective notices and enforcement orders in the case of non-compliance.
- The LEA also investigates citizen's complaints related to solid waste or recycling facilities and directly order corrective measures or make referral to the proper agency(s) should conditions require follow up.
- The LEA is certified by the California Department of Resources Recycling and Recovery (CalRecycle).

Purpose of Informational Meeting

- Public Informational Meeting is part of the permitting process to issue a new or revised SWFP as required by California Code of Regulations, Title 27, Section 21660.2.
- Provide the public with information pertaining to the project and permitting process for new or revised permits
- Allow the public to provide feedback and/or comments on the project related to the solid waste facility permit

SWFP Permitting Process - LEA

- Application Package Received by the LEA
- Application Package Accepted by the LEA (within 30 days of receipt date)
- LEA shall conduct Public Information Meeting (within 60 days of receipt date)
- The LEA prepares/submits to CalRecycle & the applicant a copy of the proposed SWFP (within 60 days of acceptance date)
- If CalRecycle concurs, the LEA issues the SWFP (within 5 days of concurrence)

SWFP Process - CalRecycle

- LEA sends application package & proposed SWFP to CalRecycle
- CalRecycle to review application package
- CalRecycle holds one public meeting to discuss the proposed SWFP
- CalRecycle concurs or objects to the issuance of the SWFP
- Decision to be posted on CalRecycle's website & LEA to be notified in writing

Project Description

	Current	Proposed
Facility Type	Large Volume Transfer Processing Facility	**Remains the Same:** Large Volume Transfer Processing Facility
Permit Type	Full Solid Waste Facility Permit (SWFP)	**Remains the Same:** Full Solid Waste Facility Permit (SWFP)
Daily Tonnage Limit	800 tons per day (tpd) consisting of the following: • 500 tpd municipal solid waste, construction and demolition, green waste • 300 tpd of curbside recyclables	**Remains the Same:** 800 tpd consisting of the following: • 500 tpd municipal solid waste, construction and demolition, green waste • 300 tpd of curbside recyclables
Hours of Operation	5:30am to 7:30pm – 7 days/week Internal operation/maintenance 24 Hours Per Day	**Remains the Same:** 5:30am to 7:30pm – 7 days/week Internal operation/maintenance 24 Hours Per Day
Permitted Area Size:	0.88 Acres from the 3.47 acres property	**2.3 Acres – to include an existing baler.** **Note: This is still within the 3.47 acres property boundary**

Project Description

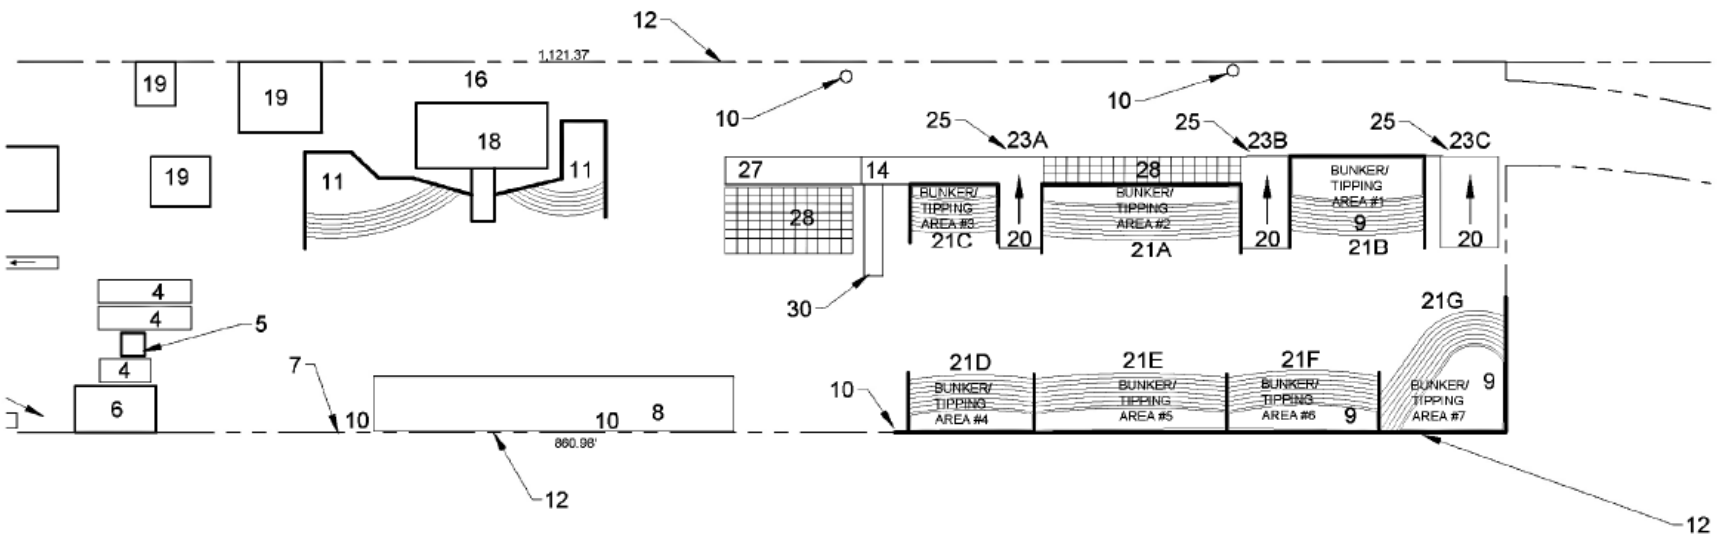

- The revision seeks to expand the permitted area from 0.88 to 2.3 acres to accommodate an existing baler and allow the processing and baling of municipal solid waste residuals.
- The facility's approved maximum daily capacities will **remain unchanged** at 500 Tons Per Day (TPD) for municipal solid waste, green waste, and construction and demolition debris, and 300 TPD for curbside recyclables. The application package also includes a proposed Transfer Processing Report (TPR) which provides operating procedures for the facility as well as important facility and contact information.

KEY NOTES

1. Fire Hydrant (See Figure 3)
2. Gated Ingress/Egress (See Figure 3)
3. Propane Tank (See Figure 3)
4. Truck Scale
5. Scale House
6. Metal Building
7. Diesel Tank
8. Roll-Off Bin Storage for Recyclables
9. Curbside Recyclables Storage
10. Fire Hose
11. Pre-Bale Piles/Bunkers
12. Perimeter Security Fence (Min. 8' tall galvanized metal and chain link.)
13. Landscape Area (See Figure 3)
14. Loading Dock
15. Not Used
16. Restroom (See Figure 3)
17. Accessible Parking Space (See Figure 3)
18. Metal Canopy Cover Baler
19. Metal Canopy
20. Load-Out Ramp

21A. Waste Storage Bunker "A" - (86' w x 26' d x 15'h)
21B. Waste Storage Bunker "B" - (58' w x 35' d x 15' h)
21C. Waste Storage Bunker "C"- (38' w x 26' d x 15' h)
21D. Waste Storage Bunker "D" - (60' w x 26' d x 15' h)
21E. Waste Storage Bunker "E" - (65' w x 25' d x 15' h)
21F. Waste Storage Bunker "F" - (135' w x 25' d x 15' h)
21G. Waste Storage Bunker "G" - (50' w x 55' d x 15' h)
22. Solid Perimeter Wall
23A. Transfer Truck Load-Out Space #1
23B. Transfer Truck Load-Out Space #2
23C. Transfer Truck Load-Out Space #3
23. Hazmat Storage Locker
24. Not Used
25. Load Out Truck Scale
26. Steel Cap Processing
27. Loading Dock Ramp
28. Baled Material Storage
29. Storm water treatment system (See Figure 3)
30. Baled MSW Load out
